

## PROJECT BRIEF / QUOTE INQUIRY FORM

The goal of this questionnaire is to collect basic information about a desired security evaluation such as a target of the analysis, its scope and project's constraints.

The questions below encompass the most crucial information we require in order to be able to provide a customer with a response containing our availability for the project and a quote for our services.

Please, fill and sign this form, encrypt it with our PGP key and send it back to us at [services@security-explorations.com](mailto:services@security-explorations.com) address.

### CUSTOMER INFORMATION

A. Company / organization  
name (\*)

B. Company / organization  
address (\*)

C. Telephone (\*)

D. Fax

E. Country (\*)

F. Number of employees /  
members

G. Primary web address (\*)

H. Primary business  
(please, describe in a few  
words what your company  
or organization does)

I. Name of the contact  
person (\*)

J. E-mail address of the contact  
person (we require that it is  
in the same domain as G) (\*)

**(\*) required fields**

## PROJECT DETAILS

1. General information about a target of the evaluation (product / service name and brief description).

.....

.....

.....

.....

.....

2. Is this about a product / service already available to customers ?

YES / NO

3. What is the scope of the analysis ?

- whole product / service YES / NO
- selected component(s): YES / NO
  - .....
  - .....
  - .....
  - .....
- target's design YES / NO
- target's architecture YES / NO
- target's implementation YES / NO

4. What kind of an analysis does the project require ?

- source code analysis YES / NO
- binary code analysis YES / NO

5. What is the approximate size of a target code base (lines of code / MBs) ?

- binary code: .....
- source code: .....

6. What technologies / frameworks were used to implement a target of the evaluation ?

- .....
- .....
- .....
- .....

7. What programming languages were used to implement a target of the evaluation / what approximate percentage of a target code base they make ?

- C / C++ YES / NO ..... %
- Java YES / NO ..... %
- C# YES / NO ..... %
- Assembly language for the following processors / architectures YES / NO
- ..... %
- ..... %
- Python YES / NO ..... %
- Go YES / NO ..... %
- Perl YES / NO ..... %
- Ruby YES / NO ..... %
- PL/SQL YES / NO ..... %
- JavaScript / HTML YES / NO ..... %
- Other YES / NO
- ..... %
- ..... %

8. Will any base material be provided from a customer side (for the duration of a project) ?

- source code YES / NO
- binary code YES / NO
- internal / developers' documentation YES / NO
- other
- .....
- will the above be available in English ? YES / NO

9. Does the project require access to any specific hardware or deployment environment(s) ?

- YES / NO
- details
  - .....
  - .....
  - will the access to the above be provided by a customer (for the duration of a project) ?
  - YES / NO

10. Does the project require frequent travels to or on-premise work in customer location(s) ?

- YES / NO
- details
  - .....
  - .....

11. Are there any constraints we should be aware of ?

- desired project start date .....

- desired project end date .....
- legal constraints (NDAs) YES / NO
- other  
.....

12. Are you willing to make use of information that your product / solution was the subject of a security review by Security Explorations (public announcement / press release, product materials / presentations, etc.) ?

YES / NO

13. What are your goals / requirements / expectations regarding the project ?

.....

.....

.....

.....

.....

14. Is there anything else we should be aware of prior to engaging into the project ?

.....

.....

.....

.....

.....
